[13:29] <xeranarth> What game budget? We've got, what, 300 man dev teams? That's not budgeting. That's bloating your staff to turn games into a Chinese Sweat Shop.

[13:29] <mjl1986> Also called "Kiss our ass"

[13:30] <darthradovanviking> I do that every month

[13:30] <darthradovanviking> so it cant be that hard

[13:30] <aes0411> It's not a lack of skill/knowledge. It's greedy mindset

[13:30] <clutchman1973> lack of skill,like your gameplay lol

[13:30] <chairmancaleb> @Xeranarth I mean....games are very much different these days compared to the 80's.

[14:12] <butter__my__bread> a lousy 210 credits lol
[14:12] <theycallmejimbob> Yeah I agree with you there TriHard4Liife though I'd rather see MvC Infinite compared to something like dishonored death of the outsider

[14:12] <onlinecombosonly> No
[14:12] <teamguardanator> droids are not empires...

[14:13] <therealkingghidorah> @DarksydePhil I would recommend the tank I once got 24,00 points using the tank

[14:13] <theycallmejimbob> it seemed very generic to me TriHard4Liife :D
[14:13] <vendatus> wait are there no destroyer droids? WutFace

[14:13] <stuart360> Death of the Outsider had some funny rage in the playthrough though Jimbob
[14:13] <secretbossfight> Prequels should have had more of this

[14:14] <trihard4liife> I die I complain LUL
[14:14] <handwander> Pick a vehicle, get more points in that, then pick Vader. It's easier to get a ton of points using those than the normal classes I think.
[14:14] <secretbossfight> Phil v Phill
[14:14] <neospartanhesperos9> isn't Bossk the lizard
[14:15] <theycallmejimbob> you're right there stuart360 for the first couple of hours it was pretty tame :D

[14:15] <clarkeetwitch> ea dick rider playing battlefront
[14:16] <onlinecombosonly> I can see fine
[14:16] <methr0llins> its hard to aim in 3rd person, even harder using a controller
[14:16] <lbuttondash> the aim assist is minimal, it doesn't lock on like la noire
[14:16] <depleet420> no its easy
[14:16] <trihard4liife> @depleet420 he had 11 kill streak before so
[14:16] <vendatus> turn the brightness up then LUL
[14:16] <stuart360> This runs at 4k/60 with top setting on the X, i can't even do that on my 980ti PC, well not with lowering a few settings.
[14:16] <sardarkh> Contrary to popular opinion, there's no aim assist without a specific loot box's star card
[14:16] <hankhillpropanegod> How many loot crates have you bought Phil tdogRat tdogCoin
[14:16] <darkciders> mmmm look inside you must, to harness light within

[15:46] <kushiyakitori> i didn't think there was friendly fire either. not sure why a grenade would cause it and not bullets

[15:46] <darthradovanviking> I thought the movie was ok. But I have no other relation to the character then that movie @Bobbi_Ling

[15:46] <chaosalltheway> he teleported LUL

[15:46] <masternutella> It wasn't friendly fire it showed han solo killing them

[15:46] <grandpa__goan> Han shot 1st

[15:46] <butter__my__bread> @darthradovanviking the game was criminally underrated

[15:46] <bobbi_ling> han solo is overpowered vidar you hear me?

[15:46] <cookiemonster414> i think phil needs a new ps4 maybe the pro.

[15:47] <neospartanhesperos9> Logan was the best super hero movie since like... DarkKnight.

[15:47] <darthradovanviking> oh ok Butter my bread

[15:47] <stuart360> 4k on the X, 1296p on the 'Pro' lol

[15:47] <butter__my__bread> phil doesn't have a 4k tv

[15:47] <masternutella> Its 720p

[15:47] <masternutella> lol

[15:48] <stuart360> Dynamic 4k Viking, but its mostly 4k according to Digital Foundry

[15:48] <masternutella> Oh the pro?

[15:48] <bobbi_ling> storm troopers are only camo if it snows

[15:48] <uf08mycat00> 4K is partly pointless if you aren't using high res textures

[15:48] <therealkingghidorah> Despite this games flaws I still find enjoyment from it. I personally think Starfighter Assault is the best mode.

[15:48] <bentboxer> phil has opportunity to get 4k tv on black friday cheap

[15:48] <lord_dink> can you do 1080p or 4k on twitch? i never even tried...

[15:48] <myfellowjohnson> let's wait 5 years before 4k is really established dude. No reason to fap around with it now

[15:48] <stuart360> The X uses the top PC settings

[15:48] <kushiyakitori> you missed

[15:49] <masternutella> How much would a gtx 1080 be

[15:49] <loboconfiavel> like surround sound headphones, a PS4 PRO is pretty much a business investment to do this professionally

[15:49] <streetdojo> or you missed.....

[15:49] <darthradovanviking> I think you can't make out too big a difference when you go from 1080p to 4k. But when you do it the other way after having 4k for a while there is really a visual aspect to it

[15:49] <kushiyakitori> @theycallmejimbob you saw it too though, right? lol to me it looked like the reticle was

to the right of the enemy

[15:49] <wouldyoulikesomeballz> 1070 will be discounted a lot with the 1070ti

[15:49] <bobbi_ling> wheres TheRinger jim?

[15:49] <theycallmejimbob> :D yeah I did KushiYakitori just you risk some backliash saying it

[15:49] <lord_dink> they should make a star wars movie where the sith win and are handsome and the jedi's are ugly

[15:49] <chaosalltheway> I'd buy 1070ti

[15:49] <masternutella> But how much would an gtx 1080 would go for on black friday

[15:51] <bentboxer> mark hamil looks like a fat karate instructor in trailer

[15:51] <lord_dink> you can find pretty good priced 1060 on ebay or even 780ti which is about same power as 1060

[15:51] <ratchefan12> @DarksydePhil Murdered from behind remix phil?

[15:51] <wouldyoulikesomeballz> 1440p is the sweet spot for gaming

[15:51] <myfellowjohnson> Bad company 1 kinda sucked

[15:51] <masternutella> 780ti is not on pair with the 1060 are you high

[15:51] <therealkingghidorah> @bentboxer to be fair that's going to be his roll in the film pretty much

[15:51] <mobilegamesoffical> What happened at Ea wasn't it about the Reddit post

[15:51] <stuart360> 780ti is much less powerful than a 1060, its similar to a 970

[15:51] <bobbi_ling> 15 frames per second is also a sweet spot this gen

[15:51] <theycallmejimbob> aren't graphics cards hella expensive now due to cryptocurrency dspHm

[15:52] <therealkingghidorah> @DarksydePhil make sure to rack up points in an AT-ST

[15:52] <lord_dink> there's some recent videos of assassins creed origin testing 970, 780ti and 1060 and all about the same

[15:53] <chaosalltheway> I'm playing Origins on 970 currently. Stable 60 on high-very high. All you gotta do is lower your AA to "Low"
[15:53] <stuart360> A 1060 is pretty much a 980 in power. A 780ti is close to a 970
[15:53] <masternutella> ^
[15:53] <myfellowjohnson> what sucks most about EA is they pushing this Frostbite engine to everyone. Just look at Bioware, they should've used unreal engine 4
[15:53] <bobbi_ling> dilly dilly
[15:53] <shoshone> Phil actually doing good here
[15:54] <neospartanhesperos9> i had a dream last night i was playing a game and i lagged in it CoolStoryBob
[15:54] <wouldyoulikesomeballz> 970 is still a really good card
[15:54] <alukart177> @Chaosalltheway what res?
[15:54] <lord_dink> stuart360 youtube search 780ti 1060 and filter this year, lots of tests for different games, basically same performance
[15:54] <kakademon2> lol you made it to their spawn
[15:54] <chaosalltheway> @Alukart177 1080p
[15:54] <ratchefan12> waaaa shotgun lol

[15:54] <ratchefan12> shotguns suck lol
[15:54] <lord_dink> it would be 1080p but that's ok for me i don't have a 4k monitor or tv
[15:55] <lord_dink> Yes it is, youtube search tests 780ti vs 1060 performance is about the same like 5 frames difference most games
[15:55] <masternutella> lol
[15:55] <butter__my__bread> he rolled
[15:55] <yaylandsharks> why is chat in r9k
[15:55] <masternutella> You are high
[15:55] <stuart360> I dsont need to do a search because i already know. You might get the odd game where performance is somewhat similar, but 5fps is a bigger difference than you think in GPU terms
[15:55] <gamemaster2003isdead> jim you still here
[15:55] <bobbi_ling> cahman LAME
[15:55] <kakademon2> so we have an excuse for this match

[15:56] <wouldyoulikesomeballz> if you own a 980 or ti I would personally wait for volta cards
[15:56] <kushiyakitori> theres an indicator for it
[15:56] <shoshone> it was beeping
[15:56] <lord_dink> Ok sure i'm high but all the different test videos on youtube show the cards are basically same performance.... 780ti = 970 = 1060
[15:56] <uf08mycat00> Real world performance > which card has the longer bar on a chart
[15:56] <bobbi_ling> beep beep beeeeeee
[15:56] <ratchefan12> lol

[15:57] <lord_dink> i'm using a 780ti right now used, it works good, just make sure person you buy from has high ebay score and close to 100%

[15:57] <theycallmejimbob> Bobbi dspShock

[15:57] <darthradovanviking> are you selling Ling?

[15:57] <stuart360> 780ti doesn't even match a 970, its close but the 970 still is a stronger card. The 1060 matches a 980 in raw power, although the 980 often just shades the 1060 in benchmarks

[15:57] <katastrophe> This qwality khantent is cheering me up <3
